held in the Court House, on last Saturday. When Rev. Dr. Gordon was invited to pronounce the benediction, he arose in the desk, his face beaming with pleasure, his eyes moist with tears, and his venerable appearance adding emphasis to his words and asked the indulgence of the audience for a moment that he might offer a sentiment, expressive of the feelings of those present. He said it was the first time in his life he had taken any part in a political meeting. He then, in his full, clear, forcible voice, trembling almost imperceptibly with emotion, read the following smid a

silence that was almost painful: " With unwavering trust in God-with the universal prevalence of the spirit that animates this me-ting-with the memory of our beloved Washington-with the Stars and Stripes waving over us-th Union will be pre-erved."

Thefervor of a Christian was breathed in the words, imparting confidence, faith and hope to every heart present. As he pauseo a mement, ere he pronounced the Apos telie benediction, a low mermur of applause ran through the vast audience, that a the least incentive would have burst forth in dealening cheers.

It was the dawning of a better epoch of the political history of our county-may we not hope of our whole country.

American Watches! MADE BY THE American Watch Company! AT WALTHAM, MASS.

Attention is lavited to the following state ment and accompanying letters of recommentation and testimonials, in favor of these celerated Watches. A gold medal was awarded the Company by he American Institute, at New York, in 1857.

The company also received the First Premiim-a gold medal-from the Franklin Insti ute, Philadelphia, in 1853. These watenes have now been in the market ernearly ton years, during which time they

tave beef tested as to accuracy, durability and elizbilisein every conceivable manner, and have proved themselves to be the most satisfacory time-pieces ever offered to the public. This result has been brought about by a strict pplication of nechanical science to the inpection of the watch from its very inception endering it when fluished, mathematically corect in at its proportions, and necessarily as The Company have tested their watches in many instances by actual daily noting, and the esult of this test has been that they have exhibted a rate equal is regularity to the best macine chronometer.

N. B .-- We have just introduced a NEW STYYE of Watch, elaborate the dand thinner than my we have hitherto introduced, with several inprovements calculated to insure the greatest accuracy of performance, and to prevent the usual accidents and derangements to which reign Watches are liable.

The following is from Mr. Porter, the wellnown Marine Chronometer and Watch maker: Boston, April 20, 1860.

Mr. R E Robbins, Traamrer. &c: Dear Sir:-Since my note to you of Septem er, 1859, I have the number of your Com any's watches, and hear good reports from hem without exception.
